

Harold Weisinger  
7627 Old River Road  
Frederick, MD 21701

8 October 91

Dear Mr. Weisinger,

Having read your books on JFK, seeing you on the video tape ~~REASONABLE DOUBT~~ and now on the 5-part series airing on ~~A+T~~ cable TV, it is time to thank you for your dedicated research. For many years I talked to friends & associates about a possible conspiracy, only to be politely put off and labeled as a "conspiracy nut". I became so disheartened that I actually disposed of many books and materials, the presence of which would get me depressed. But you and others have kept going and kept digging. For that all Americans should thank you.

Do you have materials I could use in a high school history class? I teach social studies in an alternative high school for at-risk students; the video tape alone has really sparked interest and many students want me to teach a special class on just the assassination. If you have little I could use, please tell me of other sources. I have already contacted the Assassination Information Archive in Washington and have video tapes from them. Any help would be appreciated. I believe I must strike while my students' interest is high, and that is why I write to you.

In my own small way, I have tried to challenge any media reporting which concludes Oswald as the killer. Indeed is a report in the April Newsweek about Oliver Stone's new movie, my response to the Editors, and Newsmill's subsequent, if not really late, response. I may respond to their response, lame as it is.

Again I express my gratitude to you for your  
service to America. We support your efforts  
and can hopefully find the truth.

Sincerely,

*John Ademnn*

Newsweek Letter to the Editors  
444 Madison Avenue  
New York, NY 10022

To the Editors:

Regarding your reporting on Oliver Stone's attempt to film a re-enactment of the Kennedy assassination: You state the 6th floor of the Texas School Book Depository is the location from which Lee Harvey Oswald shot the President. You are in error. The House Commission may have concluded it so, despite evidence and witnesses to the contrary, that doesn't make it so. Shots may have come from that vicinity but no jury has ever convicted Oswald. Your reporting purports speculation and falsehood, hopefully, the opposite purpose of Stone's film.

Sincerely,

*[Signature]*

## Newsweek

444 MADISON AVENUE • NEW YORK, N.Y. 10022-4999

October 2, 1991

Mr. John E. Adelmann Jr.  
533 Lowell St.  
Dubuque, IA 52001

Dear Mr. Adelmann:

Please excuse the lateness of this response to your letter. Newsweek concedes that, in discussing Oliver Stone's latest film, we should have referred to the sixth-floor window of the Texas School Book Depository where Lee Harvey Oswald allegedly shot John F. Kennedy ("The Sixth-Floor Window," *Newsmakers*, April 29). We're sorry that, in accommodating the stringent space constraints of the *Newsmaker* page format, we short-circuited matters, however slightly.

Thank you for writing.

Sincerely,

*Russell Camron*
